

## **NVIDIA Workaround**

- 1. Close the "PSI Secure Browser" software. If you are logged in to GeForce Experience, turn off all of the features inside the application namely:
  - a. In game overlay
  - b. Game Stream
  - c. Other features (This may vary from devices)

- 5. Do the same process as above on the "NVIDIA LocalSystem Container".
- After the exam, re-open the services application and go to the properties of "NVIDIA Display Container LS" and "NVIDIA LocalSystem Container" then press "Start". Also turn on the Geforce experience features that had been disabled, then restart the device.
